STEM education

CAP's six-year STEM Kit program has already impacted over 700,000 youth, teaching them science, technology, engineering and math through 15 hands-on products geared toward aviation and aerospace education. Here, cadets work with the Rocketry STEM Kit, which introduces them to the hobby and science of model rocketry and associated careers. The rockets included in the kit help cadets progress toward one stage of CAP's rocketry badge.

AEROSPACE EDUCATION

- Educates adult and cadet members and the community on the importance of aerospace careers.
- Develops, publishes and distributes national academic standards-based Science, Technology, Engineering and Mathematics (STEM) aerospace education curricula for kindergarten through college classrooms, affecting over 400,000 K-12 students annually nationwide.
- Generates interest in STEM careers through aviation-, space- and technology-focused activities and CAP STEM Kits associated with astronomy, flight simulations, model and remote-control aircraft, robotics, rocketry, weather, hydraulic engineering, computer programming and quadcopters.
- Exposes thousands of cadets to cyber defense careers through CyberPatriot, the Air Force Association's National Youth Cyber Defense Competition.
- Provides educators with 40+ free educational programs and products as well as services that include teacher orientation flights.
- Offers grant and college credit opportunities for adult and teacher members.
- Provides aerospace support for educational conferences and workshops nationwide.

CADET PROGRAMS

- Attracts over 26,000 members ages 12 through 20 for participation in its cadet programs.
- Educates youth in four main program areas — leadership, aerospace, fitness and character development.
- Enriches school curricula through after-school programs.
- Offers orientation flights in powered and glider aircraft, as well as flight training scholarships.
- Provides activities and competitions for cadets at the local, state, regional and national levels.
- Makes opportunities for community involvement available through color guard/drill team and emergency service missions.
- Challenges youth to be ambassadors for a drug-free lifestyle.
- CAP cadets make up about 10 percent of each U.S. Air Force Academy class.
- Cadets who have earned the Gen. Billy Mitchell Award enlist in the Air Force, U.S. Army and U.S. Coast Guard at a higher pay grade.
- Participates in the International Air Cadet Exchange program.
- Awards college scholarships in several disciplines.

Learning to fly

Here, a cadet flies in one of CAP's 50 gliders, located at squadrons throughout the U.S. These orientation flights, or "O rides," introduce thousands of youth to flight, playing a vital role in the future of American civilian and military aviation.

An opportunity to lead

CAP's cadet program offers more than 1,500 of its members in-depth leadership training through National Cadet Special Activities like Cadet Officer School and the Civic Leadership Academy. The training cadets receive at these weeklong activities, which often includes STEM-based initiatives like the one seen here, enable them to become leaders in their home squadrons, their schools and their communities.

Active lifestyles

Physical fitness and well-being is the primary goal of CAP's Active Cadet Fitness initiative, which is aligned with the Presidential Youth Fitness Program. Through the program, cadets like those seen here attending their wing encampment are motivated to develop a lifelong habit of regular activity.
