

ARKANSAS WING SAFETY

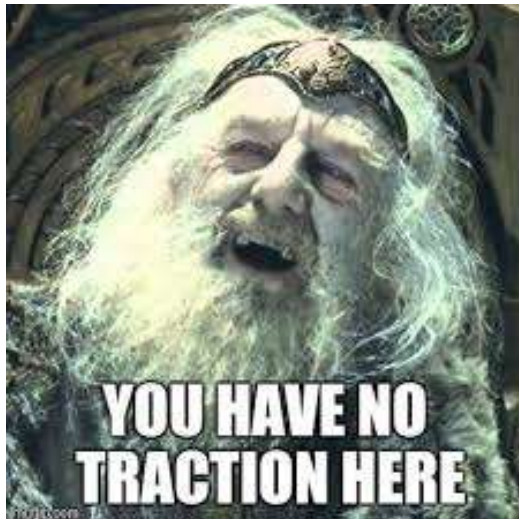

Electronic Safety.

Lots of people are going out of town for the holidays. Consider not placing your vacation status on social media. This gives would be criminals time to know when you are not home. Also consider your out-of-office replies. No need to let someone know that you are not there.

Vehicle Safety.

We have already had some cold weather. 4-wheel drive is NOT 4-wheel STOP! Also, you are in Arkansas, even if you hail from the north, everyone else around you doesn't. Give up the right-of-way and save the accident.

Seasonal Safety.

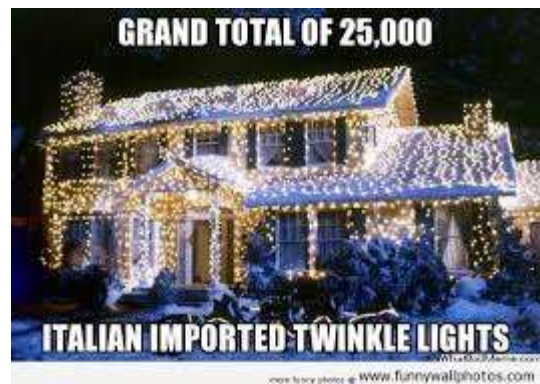

Holiday lights are going up. That 15-to-20-amp plug is not designed to light up the entire neighborhood. Just because those string lights have receptacles on the other end, doesn't mean we can use them.

Home Safety.

Homes with fireplaces are really cranking up now. Use hardwood, NOT pine, and make sure the chimney is cleaned out.

Personal Safety.

Shopping. Be aware of your soundings. More people get robbed this time of year in parking lots. Park in well-lit areas preferably in a lot with a camera. It is better to give them your stuff than to give them your life.

Flying Safety.

No one likes to think of it, but dress to egress. It's cold out there, can you survive a night in the back woods wearing what you are wearing?
