

ARKANSAS WING – AE Directorate

Squadron Primary Areas of Operation for Aerospace Education Member Support

This map is to be used as a resource for AEMs and Squadrons; it is based on ZIP Code locations and driving times between various squadrons. **This map does NOT preclude AEMs and squadrons from interaction outside any particular Area of Operations; we are ONE wing and we have ONE mission – to serve this great State and Nation.**

AEMs – Page one has all Arkansas Zip Codes listed. Please find the zip code for your home or organization and next to it you will find a number (40-102, 83, etc) or letters (WG). That number is the squadron who is responsible for your area. Go to the squadron listings on pages 3 & 4 to find the contact number of the Aerospace Education Officer (AEO) for your local squadron. They will help you with all or your aerospace needs, including setting up a TOP flight for you.
